The All State Medical Counselling Committees

Sub: Streamlining of the counselling process for admission to medical seats -  
reg.

Sir/ Madam,

The sections 14 and 15 of NMC, Act, 2019 empowers the National Medical Commission to regulate the manner of conducting of counselling by the designated authorities for admission to MBBS and PG-Medical seats in all the medical institutions which are governed by the provisions of this Act.

2. In view of above, for improving transparency in seat reporting and making the counselling process for admission against medical seats more streamlined and efficient, it has been decided by the competent authority that from academic year 2024-25, the feeding of data in seat matrix will be done by each state counselling committee (SCC) along with MCC, DGHS instead of feeding by the colleges/universities. The college/university authorities will no longer be allowed to enter data regarding number of available medical seats for admission.

3. Furthermore, each State counselling committee will also nominate a nodal officer for feeding such data. Such nodal officer will be personally responsible for correctness of data fed into system.

4. This issues with the approval of Chairman, NMC
