## PRESS RELEASE

New Delhi, 9<sup>th</sup> October, 2023

### **NMC Hosts Critical Meeting Addressing Healthcare Challenges with SMCs**

The National Medical Commission (NMC) successfully convened a virtual meeting with State Medical Councils (SMCs) on October 9, 2023. Discussions centered around vital issues impacting healthcare, including:

**Provisional Registration of FMG Students:** Deliberations on the process for the provisional registration of Foreign Medical Graduates (FMG) for internships.

**Seat Allotment Delays:** Addressing concerns regarding delays in the allocation of seats in medical colleges for FMG internships.

#### **Extension of Temporary Registration Scrutinized:**

Addressing concerns over discrepancies in temporary permission extensions by State Medical Councils (SMCs), the matter is under scrutiny per the Registration of Medical Practitioners and License to Practice Medicine Regulations, 2023. It was clarified that SMCs must neither give temporary permission to foreigners nor extend time period of temporary permission given by EMRB.

**Verification of FMGE Candidates' Data:** Emphasizing the priority forwarding of FMGE qualified candidates' data for verification with the National Board of Examinations (NBE) to EMRB.

**Quarterly Data Updates in IMR:** Urging timely submission of Quarterly data for updating in the Integrated Medical Records (IMR) system.

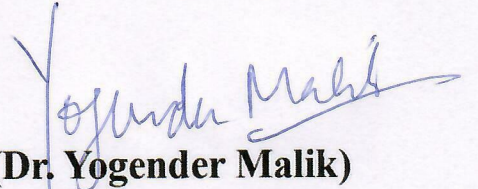

**Authentication of Documents for EMRB:** Reinforcing the necessity for State Medical Councils to send duly authenticated copies of documents to the Ethics and Medical Registration Board (EMRB), signed in ink and stamped on each page.

The meeting, approved by Chairman NMC, aimed to foster collaboration, address challenges, and ensure regulatory compliance. NMC extends gratitude to all participating State Medical Councils for their active involvement in these crucial discussions.

**About National Medical Commission (NMC)**

The NMC is committed to fostering excellence in medical education, research, and practice, ensuring the highest standards in healthcare delivery across the nation.
