MEDICAL COUNCIL OF INDIA

POSTGRADUATE MEDICAL EDUCATION COMMITTEE

Minutes of the meeting of the Postgraduate Medical Education Committee held on 7th June, 2005 at 11.30.am in the Office of the Medical Council of India, Aiwan-E-Galib Marg, New Delhi-110002.

Present:

Dr. Ved Prakash Mishra - Chairman
Dr. Indrajit Ray
Dr. V. Kanagaraj
Dr. S.R. Marliharlli
Dr. A. Rajasekaran
Dr.S.K. Sinha
Dr. (Mrs.) Usha Sharma

Lt. Col.(Retd.) Dr. ARN Setalvad - Secretary.

Apology for absence was received from Dr.N.B. Singh.

At the outset, the Chairman calling the meeting to order welcomed the members of the Committee and Prof. A. Rajasekaran the newly nominated member by the Govt. of India.

Prof. Rajasekaran with the permission of the Chair observed that the Secretary of the Council did not communicate the Gazette Notification issued by the Govt. of India to him regards his nomination to the Postgraduate Committee and also did not forward to him the relevant rules and regulations which are resorted to in decision making by the Committee.

He further brought out that the address of the Inspectors who cause the inspection is not recorded and so also the inspection reports in the format are not uniform. A reference is made to annexure but they have not been annexed to.

He observed that the performance of a recognized undergraduate institute should be given emphasis while according postgraduate seats to it. The mode of selection of students has to be brought out categorically by the admitting institute and if need be a declaration on that count should be procured from them. Emphasis must be given to the research material and publications brought out by the faculty of the concerned institute while according permission for postgraduate courses. He further observed that clinical material is abundantly available in Govt. run teaching institutions which must be given due weightage while according permissions for the postgraduate courses.

At places, Inspectors have brought out recommendations in the report and hence questioned as to whether the Inspectors have any authority in this regard? He also emphasized that quality of teachers and teaching should be given due weightage and that the said quality is not dependent on the age of teachers.

The Chairman responding to the observations so made, brought out that the Secretary on receipt of the Gazette Notification from the Govt. of India nominating Prof. A. Rajasekaran as member of the Postgraduate Committee has sent the notice of the present meeting and also the agenda well in time as is required in terms of the governing regulations.

He further observed that the Postgraduate Medical Education Committee is a Statutory Committee u/s 20 of the I.M.C. Act,1956 and is responsible for maintaining and monitoring of the standards of postgraduate medical education in the country. The onus of the Committee is to ensure that the governing rules prescribed under postgraduate regulations and decisions by the competent authorities in the Council from time to time are strictly adhered to, in its decision making process.

The inspections are caused on behalf of the Postgraduate Committee by the experts drawn from various Govt. teaching institutions having requisite prescribed eligibility and are paneled by the Executive Committee. They are appointed by the President of the Council in terms of the authorization by the Executive Committee out of the panel so prepared. The reports are submitted by the Inspectors in the prescribed format which has been formulated by the Postgraduate Committee out of strenuous exercise and has been approved by the General Body of the Council which is substantially exhaustive and incorporates all that is required to be taken into consideration for an objective decision making.

The evaluation of the inspection reports and the recommendations thereon are made by the Postgraduate Committee not on any single parameter in isolation, with varied emphasis. A totalistic view is required to be taken of all the parameters that are included in the governing Postgraduate Medical Education Regulations.

It has been an ongoing practice as a convention in the Committee whereby till date all the decisions have been taken unanimously with total transparency and objectivity.

It is true that the Inspectors are not authorized to make any recommendations in the report and the same is made known to them, yet there are occasions where such recommendations are made by the Inspectors. However, they are ignored by the Postgraduate Committee in the process of decision making.

Responding to the grievance brought out by Prof. Rajasekaran about the non-receipt of a communication from the Secretary in response to Govt. of India notification, he brought out that although President, MCI and Chairman, Postgraduate Committee are ex-officio members of the Governing Council of the National Board of Examinations, of which Prof. Rajasekaran is the President, as of now, have not received notice(s) of the Governing Council meetings that have been held till date, much less the notification in regard to their membership on the Governing Council and the agenda for the said meetings.

The Postgraduate Committee considered the compliance verification report (March, 2005) together with compliance and Council Inspector's report (May, 2001) and noted the following observations of the Council Inspector:-

“The compliance report submitted by the Dean, Rangaraya Medical college, Kakinada on 31st July, 2002 to M.C.I. that the teaching staff deficiency has been rectified, however the teaching staff members such as Dr. N. Dudaiah joined as Professor on 06/03/2005, Dr. Durdana Begam joined as Assoc. Professor on 13/3/05 and Dr. V. Narayana Rao joined as Asstt. Professor on 07/03/05 as per the orders from the office of the Director, Medical

Education A.P. Hyderabad vide letter dated 02/03/05 (copy enclosed) as per the reference from the Principal, Rangaraya Medical College, Kakinada dated 28/02/05. The respective Deans relieved the above mentioned offices from their colleges for joining at RMC, Kakinada. In the declaration form they have mentioned their joining date, however their joining reports to the college and department when asked to produce it has not been given. The Principal told that as he is attesting their declaration forms it means that they have joined the department.

Dr. Veera Raja Athili shown as a Tutor in the department of Forensic Medicine from 18/3/2001, however his form number 16 and pay slip for the month of December, 2004 show that he is working as Associate Professor in Medicine in R.M.C., Kakinada.

Dr. G. Ravi Kumar has been shown as Tutor since last 2 years in the department, however his form number 16 and salary statement for 2004-05 and 2003-04 show that he is Tutor in Pharmacology.”

In view of above, the Committee further decided to seek clarification from the college authorities in regard to above observations made by the Council Inspector in the inspection report and defer the consideration of the matter till the clarification is received.

188. Exemption to in-service candidates of the state of Kerala from appearing for PG common entrance examination or to fix the minimum percentage of marks (40%) for their eligibility in admissions in PG courses.

Read: the matter with regard to exemption to in-service candidates of the state of Kerala from appearing for PG common entrance examination or to fix the minimum percentage of marks (40%) for their eligibility in admissions in PG courses in light of Legal opinion.

The Postgraduate Committee considered the matter with regard to exemption to in-service candidates of the state of Kerala from appearing for PG common entrance examination or to fix the minimum percentage of marks (40%) for their eligibility in admissions in PG courses in light of Legal opinion and approved the following as under:-

- (a) *The minimum eligibility for inservice candidates is not compromised. However, weightage is given on the basis of their seniority or the rural service in a quantified manner including due cognizance to difficult rural service, which could be added to their eligibility score for the purpose of computation of inter-se merit amongst themselves as they are to compete for a quota of seats earmarked for them.*
- (b) *The Medical Council of India has recommended amendment in the Postgraduate Medical Education Regulations, 2000, wherein it is proposed that 50% of the Diploma seats should be exclusively earmarked for admission to the health personnel in the rural health services.*

As a matter of fact, Council is of the considered opinion that entry of the rural health manpower into Diploma course would update them in terms of "knowledge/informational inputs as well as hands on training". The non-entitlement of admission to postgraduate Degree courses per se could be a well founded initiative which would facilitate retaining the said manpower to serve the rural areas as against, procurement of the degree qualifications would be naturally tempting them to opt for pursuits off the rural situations, which would be self defeating.

- © *The criterion for admission to the inservice candidates be fixed in terms of scheme incorporated at seriatim III under the Postgraduate Regulations, 2000 which reads "on the basis of the individual cumulative performance at the first, second and third MBBS examinations, if such examinations have been passed from the same university.*

This would satisfy the limit of the requirement of securing minimum 50% marks in as much as the passing percentage prescribed by the Council for passing all these examinations has been fixed as 50% irrespective of the stream where from the candidate is admitted.

However, the legal embargo that has been brought out by the various pronouncements by the Hon'ble Supreme Court interpreting clause 9 of the Postgraduate Regulations, 200, in as much as, that there should not be two different yardsticks for admission to the postgraduate courses by the same admitting authority, meaning thereby that in service candidates cannot be admitted to the postgraduate courses by the admitting authority resorting to any different yardstick as against the one applied to the remainder of the students and further the weightage so contemplated cannot be added so as to compensate for the deficiency of the minimum eligibility score i.e. 50%.

As such, justifying the cause for update of the rural health manpower, so as to make the rural health care delivery system effective, it would be appropriate to provide for any one of the three modalities as an amendment to the clause 9 of the Postgraduate Regulations along with the other proposed amendments that are already underway and are pending/awaiting notification by the Govt. of India.
