1. There is discrepancy in the salaries of Professors & Asso. Prof. Dr. G. Sajjan as Professor is drawing Rs. 50, 000 p.m., which is less than Dr. G. Deshpande, Asso. Prof. who is drawing Rs. 61, 000 p.m.

6. Total IPD for 2013 for the entire Hospital (Page 6) is 245968, which means 819 admissions per day, which is more than the total beds of the Hospital and is not feasible.

IPD of the year means number of patients admitted in that year. At the time of admission each patient is given an IPD number, which remains the same even if the patient stays in hospital for many days. 2. Total IPD of Paediatrics Department during last year was 26337, which means 87 admissions per day as against a total of 90 beds, which is not feasible.

2. The Teaching Institute has cited the provisions of Andhra Pradesh G.O. No. 36 dt. 28/01/2004 stating that "No stipend will be paid to the PG Students admitted in private Medical/Dental College, by the Management". *"The Post Graduate students undergoing Post Graduate Degree/Diploma/Super-Specialty Course shall be paid stipend on par with the stipend being paid to the Post Graduate students of State Government Medical Institutions / Central Government Medical Institutions, in the State/Union Territory where the Institution is located."*

These Regulations being Mandatory in character are required to be followed by all and would take precedence over any State Govt. Order; hence any State Govt. Resultantly, the action of the Teaching Institute in not paying stipend to their Residents is contrary to the PG Medical Education Regulations. The College is still not paying Stipend at Govt. rates.

The Postgraduate Medical Education Committee considered the Council Assessor's Report (27th September 2014) and compliance dated 24th November 2014 submitted by the College Authorities and decided to recommend to the Central Govt. to disapprove the scheme for Increase of seats in MS (ENT) course at Mahatma Gandhi Mission's Medical College, Aurangabad under MGM Institute of Health Sciences, Navi Mumbai u/s 10A of the IMC Act, 1956 for the academic year 2015-16, because of the following facts:-

1. Shortage of Senior Resident: 2.
2. No information is given regarding stipend paid by the State Govt. to Residents. The Teaching Institute is paying Rs. 11, 000; Rs. 13, 000 & Rs. 15, 000 p.m. respectively to I / II / III year Residents as stipend, which is less and not as per the Regulations.
3. Procedures like Cochlear Implant, Tracheoplasty have not been performed in preceding 3 years.
4. Total IPD for the year 2013 is 8746, which means 29 admissions per day against 30 beds, which is not feasible.

IPD in a year means number of patients admitted in that year. Regular patients are admitted on working days only, which are about 300 days in a year. The data supplied by the College Authorities indicates that the number of patients admitted daily is more than total beds in the Hospital and department, which is not possible. The calculation given by the College Authorities gives total bed occupancy in the year and not IPD. It is an after thought to justify erroneous data already provided. Each patient when admitted is given an IPD number, which is not changed even if he stays for a week. Years IPD is total IPD numbers given in that year. As per your calculation bed occupancy should be 80% (24 out of 30) but as per your report bed occupancy was 92%. This is a data mismatch.

Kashibai Navale Medical College and Hospital, Narhe, Pune under Maharashtra University of Health Sciences, Nashik u/s 10A of the IMC Act, 1956 for the academic year 2015-16, because of the following facts:-

1. Total IPD of the year 2013 is 8761, which means 29 admissions per day against 40 beds, which is not feasible. As per the Assessor, there were only 2-3 admissions per day.

IPD of the year means number of patients admitted in that year. At the time of admission each patient is given an IPD number, which remains the same even if the patient stays in hospital for many days. Total IPD numbers given in a year is the total IPD of that year, which is same as the total number of patients admitted in that year.

The contention of the College Authorities in the Compliance to call Average Bed Occupancy multiplied by 365 as total IPD of the year is not correct. It is an afterthought to justify false data already provided. Percentage Bed Occupancy have been provided elsewhere in SAF.

2. There is discrepancy in IPD figures of the year 2013 i.e. on page 2 of the Assessment Report total IPD is 8761, whereas on the Page 3 of the Assessment Report total IPD is 10051. The data is thus non-genuine and imaginary.

Kashibai Navale Medical College and Hospital, Narhe, Pune under Maharashtra University of Health Sciences, Nashik u/s 10A of the IMC Act, 1956 for the academic year 2015-16, because of the following facts:-

1. Total number of major operations has decreased from 7, 418 in 2011 to 6, 940 in 2013.
2. Departmental library is shown to have 3, 340 books, which is not feasible.
3. On the day of Assessment total Major Surgeries were 23 and Minor Surgeries were 12 in 15 Operation Theatres. That means less than 2 Surgeries per O.T., which is very low.
4. Only 5 MRI at the entire Hospital were done, which is very low.
5. Promotion of Dr. Jyoti Kale, Professor is not as per the Regulations. She has been Assoc. Professor for 2 years only.
6. Promotion of Dr. Girish Yashwant, Professor is not as per the Regulations. He has been Asst. Professor for 3 years 9 months and Assoc. Professor for 1 year 3 months against the requirement of 5 years and 4 years, respectively.
