After detailed discussions, the Postgraduate Medical Education Committee observed / noted that the courses were started with the permission of State Govt. prior to 10(A) came into existence in 1992. However, Section 11(2) has been in existence ever since the IMC Act, 1956 came into existence and the college authorities were expected to apply for recognition when the first batch of students appeared in the examination. However, none of them did so. Now all these courses have been discontinued long back and it is not possible to conduct recognition inspection u/s 11(2) of the IMC Act, 1956 because the same is done at the time of examination and there is no examination possible. As per the existing MCI Regulations, there is no provision under which Postgraduate Medical Education Committee / MCI can recommend recognition without following the prescribed procedure.

Under the peculiar circumstances as explained above and keeping in view the fact that a large number of students have passed out and their diplomas remain unrecognized, the Central Govt., Ministry of Health & F.W. may take an appropriate view as it may deem fit in the matter.

Read: the matter with regard to recognition of DO/ DOMS qualification in respect of students being trained at Indira Gandhi Medical College, Shimla granted by Himachal Pradesh University along with the representation received from Dr. Jitender Chauhan, Eye Surgeon, RH Solan Himachal Pradesh.

The Postgraduate Medical Education Committee considered the matter with regard to recognition of DO/ DOMS qualification in respect of students being trained at Indira Gandhi Medical College, Shimla granted by Himachal Pradesh University along with the representation received from Dr. Jitender Chauhan, Eye Surgeon, RH Solan Himachal Pradesh and after detailed discussion, the Committee noted that the Course was started in the year 1982 and since then approx. 21 candidates have passed out and the course was discontinued in 2007. The course was started with the permission of State Govt. prior to 10(A) came into existence in 1992. However, Section 11(2) has been in existence ever since the IMC Act, 1956 came into existence and the college authorities were expected to apply for recognition when the first batch of students appeared in the examination. However, the College Authorities did not do so. The Council has no record to confirm that the Institute was ever inspected for recognition of this diploma. Now the course has been discontinued and it is not possible to conduct recognition inspection u/s 11(2) of the IMC Act, 1956 because the same is done at the time of examination and there is no examination possible. As per the existing MCI Regulations, there is no provision under which Postgraduate Medical Education Committee/ MCI can recommend recognition without following the prescribed procedure.

Under the peculiar circumstances as explained above and keeping in view the fact that a large number of students have passed out and their diploma remain unrecognized, the Central Govt., Ministry of Health & F.W. may take an appropriate view as it may deem fit in the matter.
