5. Patients' details of the last duty done by Senior Residents did not corroborate with details documented in emergency register, thus raising doubt about their genuineness.
6. Projected issuance of 2 blood units/day to the department did not corroborate with projected Surgical work. Random checking revealed that in most of the cases it was for Anaemia rather than any Orthopaedic Surgical exercise.
7. Most of operating work shown as Minor operations comprised of Local Steroid Injections or Suture Removal, etc. performed in the operation room. Data of Minor operations appear to be inflated.

9. Office space for faculty appeared to have been created only for assessment purpose since brand new furniture did not show even a single sheet of paper or pen or books, clinical records, etc.
10. Dr. V.S.V. Kumar & Dr. S. Velumurugan, Senior Residents have 3 years experience at Southern Railways hospital & not in a department in a medical college; hence not considered.

As per provisions of the Postgraduate Medical Education Regulations, 2000, failure to seek timely recognition as required shall invariably result in stoppage of admission to the concerned Post Graduate Course. This is also clarified in the letter of permission granted u/s 10A of the IMC Act, 1956 issued for these seats, which reads as under:

"This permission for starting/ increase of seats in the above course and admission of students will be till such time the first batch of students admitted against the above course appears for the first final examination in the subject."

In case, the college authorities desire to submit compliance, same should be received in this office preferably within six weeks of issue of this letter but definitely, prior to next admission so that the matter of recognition can be finally decided. If no compliance is received within this period or compliance/ compliance verification is found unsatisfactory, it will result in stoppage of admission to the postgraduate course against the above mentioned seats.

The Postgraduate Medical Education Committee considered the matter with regard to reconsideration of applications for starting/increase of seats in various PG courses at Chhatrapati Shahuji Maharaj Medical University, Lucknow, Uttar Pradesh

under King Georges Medical University, Lucknow u/s 10A of the IMC Act, 1956 for the academic year 2016-17 along with the letter dated 25/08/2015 received from the Central Govt., Ministry of Health & Family Welfare, New Delhi and the members of PG Committee observed that the Consent of Affiliation for various PG courses is not submitted along with the applications for PG courses.

The members of PG Committee also observed that Hon'ble Supreme Court in WP (c) # 705 of 2014 Royal Medical Trust (Regd) &Anr. v/s Union of India &Anr and other such matters in its order dt. 20/08/2015 has observed as under:

“

27

Initial assessment of the application at the first level should comprise of checking necessary requirements such as essentiality certificate, consent for affiliation and physical features like land and hospital requirement. If an applicant fails to fulfill these requirements, the application on the face of it, would be incomplete and be rejected. Those who fulfill the basic requirements would be considered at the next stage.

...”

It was further observed that in SLP # 15043/2015 Padmashree Dr. D.Y. Patil Medical College v/s MCI &Anr., Hon'ble Supreme Court in its order dt. 31/08/2015 has held as under:

“ ...

15. *In the instant case, the application was admittedly incomplete when it was filed. Though there is a dispute whether it was filed before 31st August, 2014. It was submitted on behalf of the MCI that it was filed on 02.09.2014. Be that as it may. Even assuming that it was filed before 31.8.2014, admittedly it was an incomplete application as the essentiality certificate issued by the Government of Maharashtra was not enclosed along with the application form due to which application came to be rejected and delay has taken place for which the petitioner has to blame itself.*

...

20. *On an analysis of the aforesaid decisions, it is crystal clear that the time schedule is required to be strictly observed. ...*

...

23. *Considering the statutory time schedule and that the same is already over and in the facts and circumstances of the case, it would not be appropriate to direct inspection to be made and thereafter a decision to be taken for the current academic session 2015-16 as that would be in breach of the law laid down in various decisions of this Court which is binding. Thus, we direct that the application which has been submitted by the college for the academic session 2015-16 be considered for the next academic session, subject to fulfillment of other requisite formalities, as may be necessary, and thereafter the MCI shall conduct an inspection well-in-time as per the time schedule fixed under the Regulations of 1999. The Special Leave Petition is dismissed with the aforesaid modification. Ordered accordingly.”*

It is pertinent to mention here that in all previous applications by the Institution, Consent of Affiliation by the Registrar of the University was always enclosed. It is only this year that they have not done so.

In view of the law laid down by Hon'ble Supreme Court and above observations and as the applications for various PG courses were incomplete when submitted and the defects were not rectified by the last date of submission of applications, it was decided to reiterate its earlier decision taken at its meeting dt.14/07/2015 to return the applications to the Central Govt. recommending disapproval of the scheme.

Even assuming that it was filed before 31.8.2014, admittedly it was an incomplete application as the essentiality certificate issued by the Government of Maharashtra was not enclosed along with the application form due to which application came to be rejected and delay has taken place for which the petitioner has to blame itself.*

Thus, we direct that the application which has been submitted by the college for the academic session 2015-16 be considered for the next academic session, subject to fulfillment of other requisite formalities, as may be necessary, and thereafter the MCI shall conduct an inspection well-in-time as per the time schedule fixed under the Regulations of 1999.
