“ ...

It is relevant to point out that the Council strictly follows the procedure as prescribed under the IMC Act, 1956 and the Regulations framed thereunder for approval of the Minutes of the Meetings of the Post Graduate Medical Education Committee of the Council. However, as the General Body Meeting of the Council is held twice in a year the decision taken by the Post Graduate Committee could not be implemented, unless the Minutes of the Meeting are approved in the next General Body meeting. In order to meet the deadlines as prescribed by the Hon'ble Apex Court in the case of Mridul Dhar Vs Union of India (2005) 6 SCC 65, Priya Gupta Vs State of Chhatisgarh (2012) 7 SCC 433, Royal Medical Trust Vs Union of India (2015) 10 SCC 19 as well as recently vide order dated 18.01.2016 in the case of W.P.(C) 76 of 2015 - Ashish Ranjan Vs Union of India & Ors., the meetings of the PG Committee are held twice or thrice in a month depending upon the workload. In view thereof, the Council in order

to avoid delay and in the interest of the medical colleges and the students, decided to divide the cases under three categories:

- (i) Cases where the Post Graduate Committee has decided to grant recognition to the college for conducting the Postgraduate course;
- (ii) Cases where the Postgraduate Medical Education Committee has decided to call upon the college to submit a compliance within 4 to 6 weeks, in view of the deficiencies noticed by the assessors during the inspection,;
- (iii) Cases where the application is received from the medical colleges for opening of a new postgraduate course or for increase of seats in an existing postgraduate course.

The decisions in cases falling under category (i) mentioned above are deferred till the same are confirmed / approved in next General Body meeting of the Council. These cases for grant of recognition would fall under section 11 of the IMC Act and not under section 10(A) of the Act. The recommendation for grant of recognition (as against the recommendation for grant of initial permission / renewal) – falling under section 11 of the IMC Act is made by the General Body of the Council.

However, the cases falling under category (ii) & (iii) falling within the purview of section 10(A) of the Act are also urgent in nature and are required to be processed as per the time schedule approved by the Hon'ble Supreme Court. Accordingly, cases falling under category (ii) are immediately processed and after consideration an intimation is sent to the concerned college calling upon them to submit compliance of the deficiencies pointed out by the MCI assessors in order to avoid the delay in the matter. After compliance is submitted by the medical college and found to be satisfactory, a compliance verification assessment is conducted by the assessors of the Council, whereafter, the report of the assessors is placed before the Post Graduate Committee for consideration and final recommendation. Similarly, the cases falling under category (iii) are also urgent in nature and time bound under section 10(A) of the Act and therefore after considering the matter the recommendation of the Post Graduate Medical Education Committee of the Council are forwarded to the Central Government for further necessary action. It is relevant to submit that all the recommendations / decision of the Post Graduate Committee of the Council are placed before the next General Body Meeting of the Council for its approval and confirmation.

In case, as desired by the Oversight Committee, if the minutes of the Post Graduate Committee are to be placed before the Oversight Committee only after the approval of the General body of the Council, then, it will result in enormous delay in communicating the deficiencies to the medical colleges as well as delay in communication of the recommendations to the Central Government and the same will also be contrary to the directions of the Hon'ble Supreme Court in the case of Mridul Dhar Vs Union of India (2005) 6 SCC 65, Priya Gupta Vs State of Chhatisgarh (2012) 7 SCC 433 as well as recently vide order dated 18.01.2016 in the case of W.P.(C) 76 of 2015 -Ashish Ranjan Vs Union of India & Ors., wherein, all authorities including the MCI as well as the Central Government were directed to strictly adhere to the time schedule for processing of application and grant of permission. In the above mentioned judgments, the Hon'ble Supreme Court has categorically held that any deviation to the time schedule by any authority will attract penal consequences.

In order to ensure that the time schedule as approved by the Hon'ble Supreme Court is strictly adhered to, it is the normal practice which is being followed from last two decades that recommendations of the Post Graduate Committee of the Council are forwarded to the Central Government in cases of applications for starting or increase of PG seats for their final decision and the Govt. of India is also considering the same while taking final decision in the matter.

In view of the above, there is neither any impermissibility nor any violation of any kind whatsoever in the methodology / process being consistently followed for last two decades in considering the Inspection Reports and making recommendations to the Ministry of Health, Govt. of India under section 10(A) of the Act. It is stated that anything which may create any impediment in the time schedule to be adhered to, would not deserve to be allowed in considering such time bound matters for starting or increase of PG seats in order to avoid any delay on behalf of the Council in consideration of the applications of the medical colleges.

The Hon'ble Supreme Court vide its judgment dated 02.05.2016 in Civil Appeal No. 4060 of 20019- Modern Dental College and Research Centre V/s State of Madhya Pradesh &Ors., constituted the present Oversight Committee to oversee the statutory functions performed by the Council. Accordingly as directed by the Hon'ble Supreme Court and in order to ensure that the Oversight Committee is aware about the statutory functions being performed by the Council, the Council vide their letter dated 27.05.2016 forwarded to the Oversight Committee the Minutes of the Meeting of Postgraduate Medical Education Committee held on 24.05.2016 for their consideration. The Oversight Committee is being made aware about all the decisions taken by the Post Graduate Committee of the Council as also the said decisions are also being placed before the Oversight Committee for their consideration.

The Committee decided to forward these observations to the President with the request that she may take up this issued with the Oversight Committee.

The Postgraduate Medical Education Committee noted that P.G. Examination ordinance of some of the universities is not in accordance with MCI regulations on this subject. It was decided that a circular be sent to all head of institutions and Vice-Chancellors of Universities, which has affiliation of Medical Colleges with request that MCI Regulations pertaining to conduct of PG degree/ diploma and super-speciality examination (which has been notified with prior approval of Central Government) be implemented in totality with immediate effect. If it requires amending the university ordinance on this subject, the same should be done at the earliest. A copy of latest MCI Regulations pertaining to conduct of postgraduate degree/ diploma and super-speciality examinations be enclosed with the circular.

3. Utkal University, Orissa - Recognition of MD(Transfusion Medicine) qualification for 02 seats in respect of students being trained at SCB Medical College, Cuttack.

Read: the Council Assessor's Report (July, 2015) and compliance dated 31/03/2016 submitted by the college authorities on the standard of examination and other teaching facilities for Recognition of MD(Transfusion Medicine) qualification for 02 seats at SCB Medical College, Cuttack granted by Utkal University, Orissa.

The Postgraduate Medical Education Committee considered the Council Assessor's Report (July, 2015) and compliance dated 31/03/2016 submitted by the college authorities and decided to recommend not to recognize MD(Transfusion Medicine) qualification for 02 seats granted by Utkal University, Orissa in respect of students being trained at SCB Medical College, Cuttack because of the following facts:-

Compliance is not satisfactory.

1. One remark was that the faculty does not have any training in Transfusion Medicine. In the compliance, no evidence of their receiving training in Transfusion Medicine is submitted. Institute has stated to consider

experience after joining as faculty as period of training which is not permissible.

2. Other deficiencies as pointed out in the Assessment Report.

Admissions done (if any) against these seats i.e. 02 seats after the first batch appeared in Examination till their recognition will be irregular/ illegal and not in accordance with MCI regulations (notified with prior permission of Central Government vide notification dated 21/07/2009) and will not be recognized. As per provisions of the Postgraduate Medical Education Regulations, 2000, failure to seek timely recognition as required shall invariably result in stoppage of admission to the concerned Post Graduate Course. This is also clarified in the letter of permission granted u/s 10A of the IMC Act, 1956 issued for these seats, which reads as under:

"This permission for starting/ increase of seats in the above course and admission of students will be till such time the first batch of students admitted against the above course appears for the first final examination in the subject."

In case, the college authorities desire to submit compliance, same should be received in this office preferably within four weeks of issue of this letter but definitely, prior to next admission so that the matter of recognition can be finally decided. If no compliance is received within this period or compliance/ compliance verification is found unsatisfactory, it will result in stoppage of admission to the postgraduate course against the above mentioned seats.

The Postgraduate Medical Education Committee debated the issue of requirement of 2 years special training in the subject of IHBT/ Emergency Medicine, etc. as essential requirement at the time of recruitment of the faculty in these subjects. It was felt that this is not feasible because these courses were not existing in the Country earlier. The Committee decided to constitute a Sub-Committee of the following to suggest changes in teachers eligibility qualification in these subjects regarding 2 years special training in the subject or PG Degree in the subject concerned at the time of appointment as a faculty:

1. Dr. Datteswar Hota
2. Dr. Deelip Govindrao Mhaisekar
3. Dr. Silvano CA Dias Sapeco

1. Eligibility criteria of Senior Residents in Super-Speciality departments.
2. Recognition of MD (Forensic Medicine) already started in those colleges where there is no permission from concerned state Government for conduct of Medico-Legal postmortems and other Medico-Legal work.
3. Nomenclature of DM Rheumatology, Immunology and Clinical Immunology in which there is a lot of overlap of syllabus and some representations are received.
