130. Increase of seats in MD (Pulmonary Medicine) course at Guntur Medical College, Guntur under Dr. NTR University of Health Sciences, Vijayawada u/s 10A of the IMC Act, 1956 for the academic year 2017-18.

Read: the Council Assessor's Report (08/08/2016) on the physical and other teaching facilities available at Guntur Medical College, Guntur under Dr. NTR University of Health Sciences, Vijayawada for Increase of seats in MD (Pulmonary Medicine) course u/s 10A of the IMC Act, 1956 for the academic year 2017-18.

The Postgraduate Medical Education Committee considered the opinion of the Law Officer of the Council as detailed below:-

“Thus, as on date, there is no course in the Postgraduate Medical Education Regulations, 2000 by the name MD (Pulmonary Medicine). Thus, the Consent of Affiliation that has been submitted is for a course that does not survive since 21st July, 2009 i.e. for nearly 7 years now in the Schedule to the Postgraduate Medical Education Regulations, 2000. Accordingly, the Consent of Affiliation that has been submitted is for a course that does not exist in Regulations. Thus the necessary requirement of submitting valid Consent of Affiliation by the affiliating University with the application is not fulfilled. In this regard, the Hon'ble Supreme Court in its judgment dated 20.08.15 in Royal Medical Trust & Anr. Vs. Union of India & Anr. Reported in (2015) 10 SCC 19 has in paragraph 27 of the judgment laid down the mode and manner in which the application for establishment of new medical college, renewal of permission of existing and increase in intake capacity has to be processed, at all stages. It reads as under:-

27...

The Schedule giving various stages and time limits must accommodate very possible eventuality and at the same time must comply with the requirements of observance of natural justice at various levels. In our view the Schedule must ideally take care of:

“(A) Initial assessment of the application at the first level should comprise of checking necessary requirements such as essentiality certificate, consent of affiliation and physical features like land and hospital requirement. If an applicant fails to fulfill these requirements, the application on the face of it, would be incomplete and be rejected. Those who fulfill the basic requirements would be considered at the next stage”

Therefore, it would be appropriate to recommend to the Central Government to disapprove the application for starting/increase of seats in Pulmonary Medicine course as there is no such course existing in the regulations as on date”

In view of the above, the Postgraduate Medical Education Committee decided to approve the opinion of the Law Officer and return the application to the Central Government recommending disapproval of the scheme for increase of seats in MD (Pulmonary Medicine) course at Guntur Medical College, Guntur under Dr. NTR University of Health Sciences, Vijayawada u/s 10A of the IMC Act, 1956 for the academic year 2017-18 as the nomenclature in Consent of Affiliation is not in conformity with the Regulations of the Council on Postgraduate Medical Education, 2000.

The Postgraduate Medical Education Committee considered the opinion of the Law Officer of the Council in similar matter with regard to nomenclature as detailed below:-

.....

"Thus, as on date, there is no course in the Postgraduate Medical Education Regulations, 2000 by the name MD (Pulmonary Medicine). Thus, the Consent of Affiliation that has been submitted is for a course that does not survive since 21st July, 2009 i.e. for nearly 7 years now in the Schedule to the Postgraduate Medical Education Regulations, 2000. Accordingly, the Consent of Affiliation that has been submitted is for a course that does not exist in Regulations. Thus the necessary requirement of submitting valid Consent of Affiliation by the affiliating University with the application is not fulfilled. In this regard, the Hon'ble Supreme Court in its judgment dated 20.08.15 in Royal Medical Trust & Anr. Vs. Union of India & Anr. Reported in (2015) 10 SCC 19 has in paragraph 27 of the judgment laid down the mode and manner in which the application for establishment of new medical college, renewal of permission of existing and increase in intake capacity has to be processed, at all stages. It reads as under:-

27...

The Schedule giving various stages and time limits must accommodate very possible eventuality and at the same time must comply with the requirements of observance of natural justice at various levels. In our view the Schedule must ideally take care of:

"(A) Initial assessment of the application at the first level should comprise of checking necessary requirements such as essentiality certificate, consent of affiliation and physical features like land and hospital requirement. If an applicant fails to fulfill these requirements, the application on the face of it, would be incomplete and be rejected. Those who fulfill the basic requirements would be considered at the next stage"

Therefore, it would be appropriate to recommend to the Central Government to disapprove the application for starting/increase of seats in Pulmonary Medicine course as there is no such course existing in the regulations as on date"

In view of the above, the Postgraduate Medical Education Committee decided to approve the opinion of the Law Officer and to return the application to the Central Government recommending disapproval of the scheme for increase of seats in MD (Skin & VD) course at Kempegowda Institute of Medical Sciences, Bangalore under Rajiv Gandhi University of Health Sciences, Karnataka u/s 10A of the IMC Act, 1956 for the academic year 2017-18 as the nomenclature is not in conformity with the Regulations of the Council on Postgraduate Medical Education, 2000.

155. Starting of MD (Psychiatry) course at Mysore Medical College and Research Institute, Mysore under Rajiv Gandhi University of Health Sciences, Karnataka u/s 10A of the IMC Act, 1956 for the academic year 2017-18.

The Postgraduate Medical Education Committee considered the opinion of the Law Officer of the Council in similar matter with regard to nomenclature as detailed below:-

.....

"Thus, as on date, there is no course in the Postgraduate Medical Education Regulations, 2000 by the name MD (Radiology). Accordingly, the Consent of Affiliation that has been submitted is for a course that does not exist in Regulations. Thus the necessary requirement of submitting valid Consent of Affiliation by the affiliating University with the application is not fulfilled. In this regard, the Hon'ble Supreme Court in its judgment dated 20.08.15 in Royal Medical Trust & Anr. Vs. Union of India & Anr. Reported in (2015) 10 SCC 19 has in paragraph 27 of the judgment laid down the mode and manner in which the application for establishment of new medical college, renewal of permission of existing and increase in intake capacity has to be processed, at all stages. It reads as under:-

27...

The Schedule giving various stages and time limits must accommodate very possible eventuality and at the same time must comply with the requirements of observance of natural justice at various levels. In our view the Schedule must ideally take care of:

"(A) Initial assessment of the application at the first level should comprise of checking necessary requirements such as essentiality certificate, consent of affiliation and physical features like land and hospital requirement. If an applicant fails to fulfill these

requirements, the application on the face of it, would be incomplete and be rejected. Those who fulfill the basic requirements would be considered at the next stage”

Therefore, it would be appropriate to recommend to the Central Government to disapprove the application for starting/increase of seats in Radiology course as there is no such course existing in the regulations as on date”

In view of the above, the Postgraduate Medical Education Committee decided to approve the opinion of the Law Officer and to return the application to the Central Government recommending disapproval of the scheme for increase of seats in MD (Radiology) course at S. Nijalingappa Medical College & HSK Hospital & Research Centre, Bagalkot under Rajiv Gandhi University of Health Sciences, Karnataka u/s 10A of the IMC Act, 1956 for the academic year 2017-18 as the nomenclature is not in conformity with the Regulations of the Council on Postgraduate Medical Education, 2000.

162. Increase of seats in MS (Orthopaedics) course at S. Nijalingappa Medical College & HSK Hospital & Research Centre, Bagalkot under Rajiv Gandhi University of Health Sciences, Karnataka u/s 10A of the IMC Act, 1956 for the academic year 2017-18.

181. Starting of MD (Dermatology, Venereology & Leprosy) course at Calcutta National Medical College, Kolkata, West Bengal under West Bengal University of Health Sciences, Kolkata u/s 10A of the IMC Act, 1956 for the academic year 2017-18.

Read: the Council Assessor's Report (10th August 2016) on the physical and other teaching facilities available at Calcutta National Medical College, Kolkata, West Bengal under West Bengal University of Health Sciences, Kolkata for Starting of MD (Dermatology, Venereology & Leprosy) course u/s 10A of the IMC Act, 1956 for the academic year 2017-18.

The Postgraduate Medical Education Committee considered the opinion of the Law Officer of the Council in similar matter with regard to nomenclature as detailed below:-

.....

“Thus, as on date, there is no course in the Postgraduate Medical Education Regulations, 2000 by the name MD (Pulmonary Medicine). Thus, the Consent of Affiliation that has been submitted is for a course that does not survive since 21st July, 2009 i.e. for nearly 7 years now in the Schedule to the Postgraduate Medical Education Regulations, 2000. Accordingly, the Consent of Affiliation that has been submitted is for a course that does not exist in Regulations. Thus the necessary requirement of submitting valid Consent of Affiliation by the affiliating University with the application is not fulfilled. In this regard, the Hon’ble Supreme Court in its judgment dated 20.08.15 in Royal Medical Trust & Anr. Vs. Union of India & Anr. Reported in (2015) 10 SCC 19 has in paragraph 27 of the judgment laid down the mode and manner in which the application for establishment of new medical college, renewal of permission of existing and increase in intake capacity has to be processed, at all stages. It reads as under:-

27...

The Schedule giving various stages and time limits must accommodate very possible eventuality and at the same time must comply with the requirements of observance of natural justice at various levels. In our view the Schedule must ideally take care of:

“(A) Initial assessment of the application at the first level should comprise of checking necessary requirements such as essentiality certificate, consent of affiliation and physical features like land and hospital requirement. If an applicant fails to fulfill these requirements, the application on the face of it, would be incomplete and be rejected. Those who fulfill the basic requirements would be considered at the next stage”

Therefore, it would be appropriate to recommend to the Central Government to disapprove the application for starting/increase of seats in Pulmonary Medicine course as there is no such course existing in the regulations as on date”

In view of the above, the Postgraduate Medical Education Committee decided to approve the opinion of the Law Officer and to return the application to the Central Government recommending disapproval of the scheme for starting of MD (Dermatology) course at Calcutta National Medical College, Kolkata, West Bengal under West Bengal University of Health Sciences, Kolkata u/s 10A of the IMC Act, 1956 for the academic year 2017-18 as the nomenclature is not in conformity with the Regulations of the Council on Postgraduate Medical Education, 2000.
